

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

ORDNANCE SURVEY

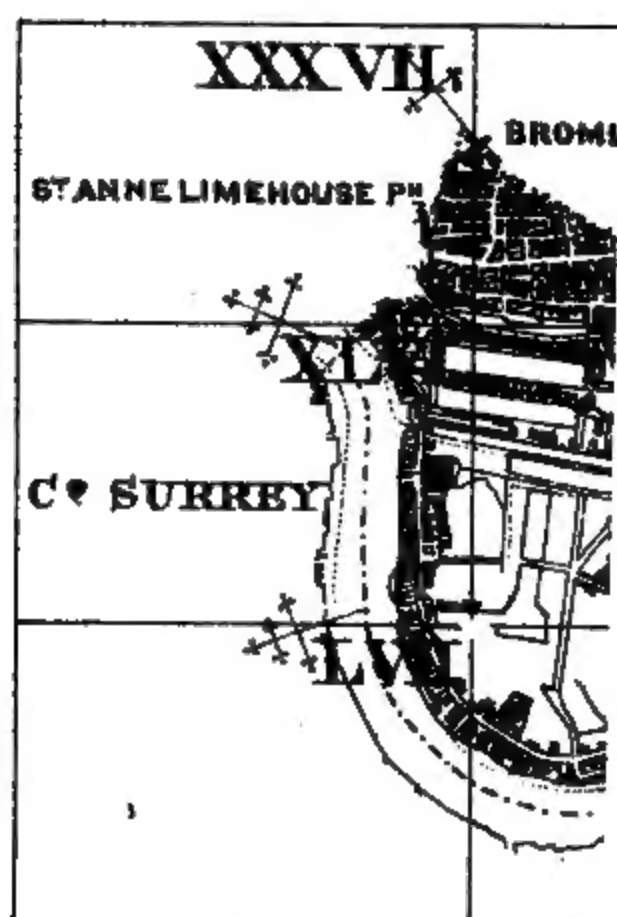

PARISH OF ALLSAI

C^O MIDDLE

INDEX TO THE

Published on the Scale of $\frac{1}{2500}$ of

Scale of this Index One

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <p>ROMAN</p> <p><i>Medieval or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, and Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> <p>ROMAN</p> <p><i>Druidical or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.

Whetstone	"	12	A large village.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	⒫	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> ROMAN Druidical or Saxon Norman or Subsequent </div> </div>		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (f) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	W
Parishes	P	Townships	T

ORDNANCE SURVEY OF ENGLAND

PARISH OF HOLY TRINITY

C^O MIDDLESEX

INDEX TO THE SHEETS

— — — — —

— — — — —

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·844 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—81·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <p>ROMAN</p> <p><i>Archaical or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names	©	Hundreds or Wards	W

•

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 8·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces () on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	W
Parishes	P	Townships	T

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (*f*) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <p>ROMAN</p> <p><i>Druidical or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ...	<i>S.S.</i> or <i>S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream	<i>T.S.</i>
Undefined	<i>Und.</i>		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF ST DUNSTAN STEPNEY & D^o (Det)

C^o MIDDLESEX

INDEX TO THE SHEETS

Published on the Scale of 2500 or 25·344 Inches to a Mile

Scale of this Index Two Inches to a Mile.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <div>ROMAN</div> <div><i>Anglo-Saxon</i></div> <div><i>Norman or Subsequent</i></div> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND
PARISH OF ST GEORGE BLOOMSBURY

C^O MIDDLESEX

INDEX TO THE SHEETS

1843

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·244 inches to a mile, or 8·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (f) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities	<div style="display: inline-block; vertical-align: middle;"> <div style="font-size: 2em; line-height: 1;">{</div> <div style="display: inline-block; vertical-align: middle; padding-left: 5px;"> ROMAN Druidical or Saxon Norman or Subsequent </div> </div>
-------------------	---

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND
PARISH OF ST CILES IN THE FIELDS

CO MIDDLESEX

INDEX TO THE SHEETS

Published on the Scale of 2500 or 25.344 Inches to a Mile

Scale of this Index Two Inches to a Mile.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	W
Parishes	P	Townships	T

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·444 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (f) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> <div>ROMAN</div> <div>Druidical or Saxon</div> <div>Norman or Subsequent</div> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	⒫	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <p>ROMAN</p> <p><i>Druidical or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ..	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> <p>ROMAN</p> <p><i>Druidical or Saxon</i></p> <p><i>Norman or Subsequent</i></p> </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

ORDNANCE SURVEY OF ENGLAND.

BOOK OF REFERENCE TO THE PLAN

OF THE

PARISH OF ST. MARY, ISLINGTON

(HUNDRED OF OSSULSTON),

IN THE

COUNTY OF MIDDLESEX,

CONTAINING 3109·569 ACRES.

MAJOR-GENERAL SIR HENRY JAMES, R.E., F.R.S., &c.,

SUPERINTENDENT OF THE ORDNANCE SURVEY.

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

1873.

Price One Shilling.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	⒫	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <div>ROMAN</div> <div>Druidical or Saxon</div> <div>Norman or Subsequent</div> </div> </div>		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ..	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length of ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the scale of 1-2500, and 6 inches to a mile :—

County Names	Ⓒ	Hundreds or Wards
Parishes	P	Townships
Extra Parochial	E	Division of Townships
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> <p>ROMAN</p> <p>Druidical or Saxo</p> <p>Norman or Saxon</p> </div> </div>	

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·244 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scale of 1-2500, and 6 inches to a mile :—

County Names	Ⓒ	Hundreds or Wards	Ⓜ
Parishes	⒫	Townships	Ⓣ

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	⒫	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> <div>ROMAN</div> <div>Druidical or Saxon</div> <div>Norman or Subsequent</div> </div> </div>		

The descriptions of the boundaries are shown by the following initials:—

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—81·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> ROMAN Druidical or Saxon Norman or Subsequent </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·844 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (f) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	©	Hundreds or Wards	W
Parishes	P	Townships	T

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·844 inches to a mile,* which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—81·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial.....	E	Division of Townships	T
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 4em; margin-right: 10px;">{</div> <div> ROMAN Druidical or Saxon Norman or Subsequent </div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

* Or 5·157 chains to an inch.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF ENGLAND

PARISH OF SUNBURY

C^o MIDDLESEX

INDEX TO THE SHEETS

EXPLANATORY REMARKS.

Scale of the Parish Plans is the 1-2500th of the actual length on the ground and is equal to 25·244 inches to a mile, or 3·157 chains to an inch, very approximately equal to one square inch to one acre, the square of an inch being equal to one acre.

Length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

Spaces (∫) on the plans are to indicate that the spaces so braced are included under the same reference number.

Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

Dimensions of the sheets on the Six-inch scale being four miles by six miles and twenty-four square miles, equal to 15,360 acres.

Following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

Names	©	Hundreds or Wards	W
.....	P	Townships	T
Parochial	E	Division of Townships	T

.....	ROMAN
.....	Druidical or Saxon
.....	Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

of Stream	C.S.	Centre of Fence	C.F.
of Road	C.R.	Top of Cop	T.C.
of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
of Hedge	R.H.	Defaced	Def.
of Wall	F.W.	Track of Stream	T.S.
Undefined		Undefined	Und.

When a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile; the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in the margin.

The Braces [/] on the plans are to indicate that the spaces so braced are under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County and the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on a scale of 1-2500 and 6 inches to a mile:—

County Names	C	Hundreds or Wards
Parishes	P	Townships
Extra Parochial	E	Division of Townships ...
Antiquities	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">{</div> <div> ROMAN Druidical or Norman </div> </div>	

The descriptions of the boundaries are shown by the following initials

Centre of Stream	C.S.	Centre of Fence
Centre of Road	C.R.	Top of Cop
Side of Stream or Drain ..	S.S. or S.D.	Centre of Wall
Root of Hedge	R.H.	Defaced
Face of Wall	F.W.	Track of Stream
Undefined		Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to indicate the part at which the change takes place.

ORDNANCE SURVEY OF ENGLAND.

BOOK OF REFERENCE TO THE PLAN

OF THE

PARISH OF TOTTENHAM

(HUNDRED OF EDMONTON),

IN THE

COUNTY OF MIDDLESEX,

CONTAINING 4642·199 ACRES.

COLONEL SIR HENRY JAMES, R.E., F.R.S., F.G.S., &c.,
SUPERINTENDENT OF THE ORDNANCE SURVEY.

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

1864

Price Two Shillings and Sixpence.

PARISH OF TOTTENHAM,

IN THE

COUNTY OF MIDDLESEX.

NOTE.—In consequence of the publication of new editions of sheets containing railways that did not exist when the original survey was made, some of the reference numbers of these new editions differ from the numbers on the former impressions of those sheets, and the areas corresponding to these numbers are necessarily altered.

In the body of this Book of Reference the numbers and areas correspond with the zincographs of the original survey.

The following reference numbers and areas correspond, and should be made use of, with the new editions of the undernamed sheets, which bear the date 1870 (and subsequently) inside the Ordnance stamp, on the upper margin of the paper:—

No. on Plan.	Area in Acres.	Description.	No. on Plan.	Area in Acres.	Description.

Roads.

Railways.

Total area of the Parish of Tottenham, in the County of Middlesex.

* Or 3.157 chains to an inch.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile,* which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, and Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales 1-2500 and 6 inches to a mile:—

County Names	Ⓒ	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities	{	ROMAN
		Druidical or Saxon
		Northern or Subsequent

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Centre of Stream or Drain ..	S.S. or S.D.	Centre of Wall	C.W.
Centre of Hedge	R.H.	Defaced	Def.
Centre of Wall	F.W.	Track of Stream	T.S.
Undefined		Undefined	Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

* Or 3·157 chains to an inch.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·844 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 18 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (f) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	<div> <div>ROMAN</div> <div>Medieval or Saxon</div> <div>Norman or Subsequent</div> </div>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined	Und.		

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.
